

Why found a company?

Stefan Schenk

**Who seriously considers
founding a company?**

THE LEADING AI-DRIVEN PARKING PLATFORM IN EUROPE

Driving the ongoing shift towards barrier-free paid parking by using AI-based automatic number plate recognition to automate & monetize off-street parking management and payment

241 Cities

>50m Parking stays p.a.

100%+ Annual growth

170+ Parking experts

Full admin and BI suite

Extensive BI suite featuring a wide range of operational and financial data analytics, and enterprise-grade administrative features, enabling self-service set-up and customization.

Proprietary payment platform

Through (1) flexible, account-based prepaid parking platform, (2) payment kiosk, offering visitors various payment methods and (3) mobile payment via QR-Code

Market-leading AI recognition capabilities

AI-based automatic license plate recognition solution, replacing barriers and streamlining traffic flow, enhancing ease of use, reducing operational inefficiencies, and reliably capturing data of parking violators

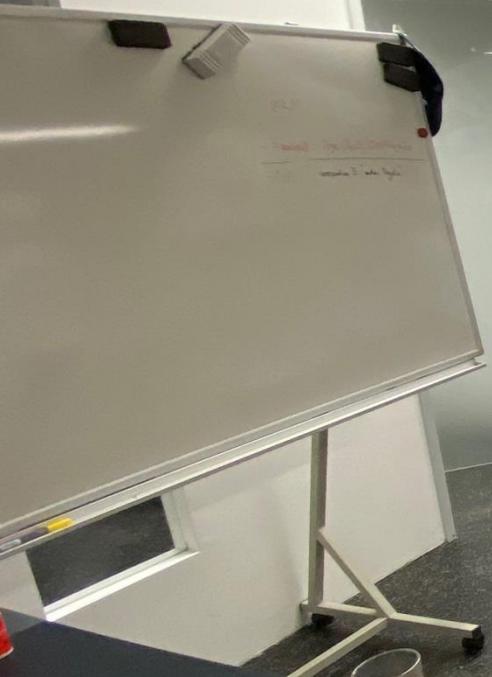

Intro

The ingredients for the leap into uncertainty.

Phase 1

**Build the product, start
knocking on doors.**

Phase 2

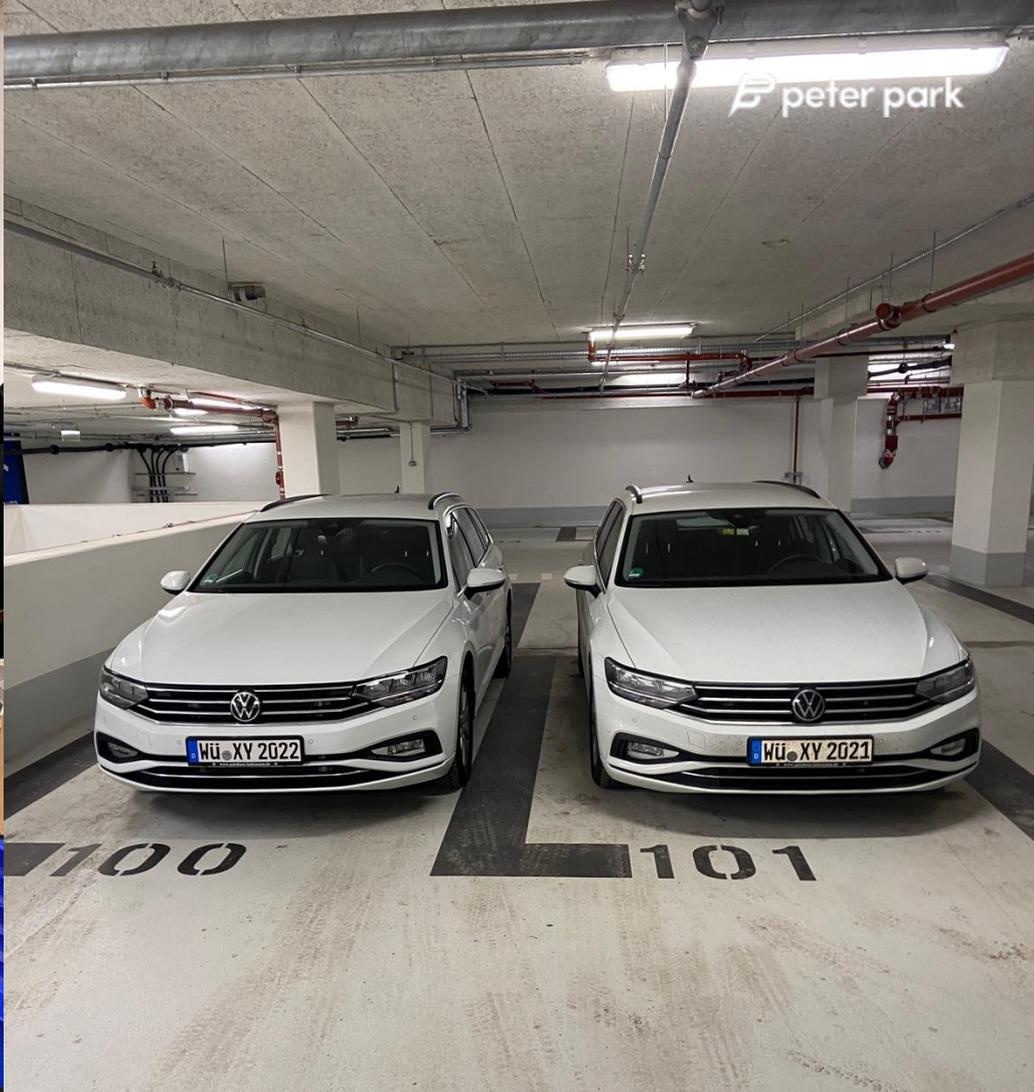

**Persistence, curiosity, and a
pinch of luck.**

 peter park

Phase 3

**The only true engine is
people.**

Why found a company?

Let's talk.
